Fabric

Micro bird-eye.
100% GRS recycled polyester
160 g/m²

The Micro Bird-Eye fabric is designed to deliver maximum performance under demanding conditions. Thanks to its structure with a higher number of interfibrillar spaces, it significantly improves breathability, facilitating thermal regulation by maintaining body temperature in cold environments while optimizing sweat evaporation. Its smoother surface provides a superior soft feel while maintaining flexibility.

Additionally, being a more compact fabric, it offers greater resistance to intensive use and excellent performance against pilling, ensuring it retains its appearance and functionality for longer.

Machine washable at 60 °C

Antibacterial treatment that prevents bad odors.

Washing instructions

- 
- Max temp. 60°C
Do not bleach
Iron max. 110°C
Do not dry clean
Do not use the dryer

Recommended printing techniques

- 

Transfer
- 

Screen printing

RET Values

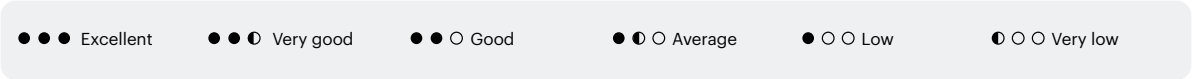

RET: measures the breathability of the fabric; the lower the RET value, the higher the garment's breathability.

Pilling Values

Pilling Values
Pilling: measures the fabric's resistance to abrasion on a scale from 1 to 5. The higher the value, the greater the resistance.
