Women's two-tone recycled stretch trousers with segmented tape

## Fabric

### Stretch.

65% GRS recycled polyester  
32% cotton  
3% elastane  
260 gsm

This fabric offers an excellent balance between durability, comfort, and elasticity

- Polyester provides durability, dimensional stability, quick drying, and is essential for maintaining the intensity of fluorescent color, allowing compliance with the EN ISO 20471 high-visibility standard.
- Cotton improves breathability and adds softness against the skin.
- Elastane adds flexibility, promoting freedom of movement and ergonomic fit.

Tapes developed by Velilla Group

This segmented and heat-sealed reflective tape offers optimal visibility in low-light conditions. Its heat-sealed application ensures perfect integration with the garment, without seams, resulting in a more pleasant and comfortable surface to the touch.

Additionally, it is certified to withstand 50 washes at 60°C, maintaining its reflective properties and original appearance even after prolonged use.

**Level of protection against ultraviolet rays**  
**UPF 50+.** Maximum achievable level, blocking over 98% of UVA and UVB rays.

This product is made with recycled polyester certified under the international GRS standard, using the equivalent of 12 post-consumer plastic bottles.

### Washing instructions

Max temp. 30°C  
Do not bleach  
Iron max. 110°C  
Do not tumble dry  
Do not use the dryer  
25 washing cycles

### Recommended printing techniques

Transfer

Screen printing

### RET Values

RET 3,91

RET: measures the breathability of the fabric; the lower the RET value, the higher the garment's breathability.

### UPF Protection Values

50+

UPF: measures the protection provided by the fabric against the sun's ultraviolet (UV) rays.
