Tejido

Outer knit.

100% acrylic
Gauge 9

Fleece.

100% polyester
140 g/m²

Outer layer: The knitted fabric provides a flexible and comfortable fit that helps retain body heat, offering effective protection against the cold.

A low gauge results in thicker, more durable fabrics, providing greater warmth and comfort in cold climates.

Inner layer: Fleece fabric that offers excellent thermal insulation and a pleasant feeling of comfort.

3M™ Thinsulate™ is a high-performance thermal insulation that delivers exceptional warmth with minimal bulk. Thanks to its ultra-fine microfibers, which are finer than a human hair, it traps air and retains body heat very efficiently, providing excellent protection against the cold without adding extra thickness.

Level of protection against ultraviolet rays

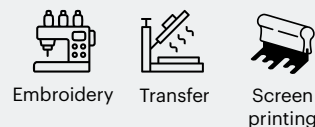

UPF 30+. Maximum achievable level, blocking over 98% of UVA and UVB rays.

Washing instructions

Hand wash only
Do not bleach
Do not iron
Do not dry clean
Do not use the dryer

Recommended printing techniques

UPF Protection Values

UPF: measures the protection provided by the fabric against the sun's ultraviolet (UV) rays.
