## Fabric

**Micro bird-eye.**
100% GRS recycled polyester
140 g/m²

The Micro Bird-Eye fabric is designed to deliver maximum performance under demanding conditions. Thanks to its structure with a higher number of interfibrillar spaces, it significantly improves breathability, facilitating thermal regulation by maintaining body temperature in cold environments while optimizing sweat evaporation.
Its smoother surface provides a superior soft feel while maintaining flexibility.
Additionally, being a more compact fabric, it offers greater resistance to intensive use and excellent performance against pilling, ensuring it retains its appearance and functionality for longer.

**Tapes developed by Velilla Group**
