74 Almond / 91 Mineral green

POCKETS

- Four pockets:

Two French
pockets

Two back welt
pockets

Fabric

Technical stretch.

65% recycled polyester GRS

35% EME

185 g/m²

EME fabric is a stretch fabric made from a bicomponent fiber developed through the combination of different polyesters. The fiber structure allows the material to stretch and recover its shape in multiple directions, helping to prevent the formation of wrinkles and creases. Fabrics containing elastomultiester are characterized by:

- Excellent wrinkle resistance
- High tear resistance
- Resistance to deformation
- Excellent shape recovery

Fabric developed by Velilla Group

STRETCH fabric provides added comfort thanks to its elasticity

Antibacterial

Antibacterial treatment that prevents bad odors.

Stain-resistant

Wrinkle-resistant
Wrinkle-resistant properties that reduce care and ironing time

Washing instructions

Max temp. 30°C

Do not bleach

Iron max. 110°C

Tumble dry

Do not use the dryer

Recommended printing techniques

Embroidery

Transfer

Screen printing

Antibacterial treatment with silver ions that prevents the proliferation of bacteria and the formation of unpleasant odors.

RET Values

RET 4

RET: measures the breathability of the fabric; the lower the RET value, the higher the garment's breathability.

Pilling Values

4-5

Pilling: measures the fabric's resistance to abrasion on a scale from 1 to 5. The higher the value, the greater the resistance.
